

Request Description for Consolidation of FOIA Request EPA-HQ-2014-001089 with FOIA Request EPA-HQ-2014-001513

Per the Conversation Summary between Jonathan Lubetsky of EPA and the Requester on December 21, 2017 (filed in FOIAonline under Correspondence), the Requester has agreed to allow EPA to consolidate his FOIA Request EPA-HQ-2014-1089 with his later FOIA Request EPA-HQ-2014-1513. Both these FOIA requests seek documents pertaining to the ENERGY STAR Office (office/bank/finance/courthouse) building model; EPA-HQ-2014-001089 seeks documents dated between January 1, 2003 and July 1, 2007 whereas EPA-HQ-2014-001513 seeks documents dated between January 1, 2006 and October 1, 2013. The Requester is interested primarily in communications, discussions, and reports related to revisions or proposed revisions to the earlier ENERGY STAR Office building model (2003/4) that were implemented in the 2007 model and/or the model being used in October 2013. The Requester also seeks documents that describe the anticipated impact of the 2007 model revisions on ENERGY STAR scores.
